LETTER FROM THE EDITOR

Hello-

I cant believe issue #3 is out! Well I guess I can because it is. Issue #3 has gotton a lot better since the first issue, but I still need lots of contributions. So keep sending in those letters.

Vans skateboarding shoes went out of business. Hilltop ski resort bans snowboarding on their slopes. Theres going to be a local snowboard contest downtown on the 3rd st hills sometime in mid Febuary. Look for flyers around town. ^{maybe} Theres also going to be a snowboard contest in Calgary, Canada in April. Theres \$10,000 in prizes to be given away (Information call (403) 286-7347). Local band Skate Death is now a 5 piece band after they added a second guitarist. Rumors have been spreading that Big Boys broke up. Is it true???

LATER, TONY

I hope the scene is going good in AK. Hey are the skate bettys as hot as I hear? That's all I ever hear about is the skate bettys and there beautiful bodies prowling around looking for cute guys to have sex with and in the meantime ride their skateboards and play skaterock? Is it true? Well I must go. Keep sending me your fanzines.

Thanks,
Chris Cummings

Dear Tony Bomb Factory,

Yup. Here's P.O.R.T. #3 for your fun and reading pleasure.

Thanks for sending ol' Sallee a copy of your magazine. Looks like you've got quite a lot of skaters out there.

Is there a pretty nice scene out there, or are those pictures sent from L.A? Just kidding. Yuk yuk. Uh-oh...

I am now residing in Boston, MA. A bit backwards out here, but creativity is definitely oozing from the rafters.

If you would like to send me any out-takes for P.O.R.T. #4, please feel free. I enjoy input.

Hope all goes well for the Bomb Factory!

Sincerely,

Sallee Baglady

Happy Holidays!!!

Bomb Factory,

Notice to ALL PUNKS!

I'm really sick of what's been going on lately to the Punk scene. Punks are starting to rag on other people about the way they dress! I mean you don't have to shave your head and wear spikes to be a punk. Just be yourself After all isn't Punk being a Non-conformist! Think about it.

P.S. You have a great zine in a year you'll be as big as Max Rand R. Keep up the good work!

BLACK FLAG

BLACK FLAG

Black Flag is probably the most original hardcore punk band in America today. Recently Black Flag was in Maine with DOA for the first PUNK show ever in this state, and I talked with Henry about the band.

C.H.R.I.S. You've gone through a lot of changes through the years.

Henry Yeah, well I'm sick of people telling me what to do and how to do things. I want to be different after all isn't that what Punk is being about?

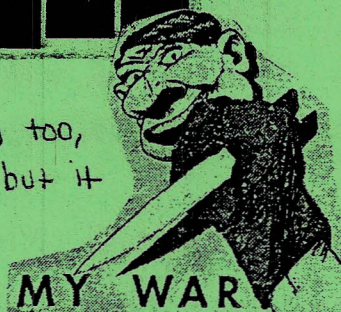

C.H.R.I.S. A lot of people say My War, your last album, is heavy metal and that you have sold out. What do you think about that?

Henry Our music ideology is to just play as much as possible. If someone doesn't like our last album or our new one they can F--K-OFF!

C.H.R.I.S. Do you consider the band to be an anarchist band?

Henry Well, not really we're just people who think about ourselves.

C.H.R.I.S. What does BLACK FLAG mean?

MY WAR

Henry Anything that you want it to, I guess it's the opposite of the white flag too, which is the flag of surrender. A lot of people think that it means ANARCHY but it doesn't.

C.H.R.I.S. What are your songs about?

Henry We have a lot of different ideas that we put into our songs. I'm not a super political person who only talks about Nuclear power like some bands do. Just listen to our songs and you'll get the message.

C.H.R.I.S. What do you think of all the fans who said you f--ked up on your last tour.

Henry I couldn't give a f--k what people think. I mean just don't come bitchin' to me! Just let 'em go listen to the Dead Kennedys and leave me the f--k alone.

BLACK FLAG ■■■

C.H.R.I.S. ■ How is your life going nowadays, happy?

Henry It doesn't matter if I'm happy or not. To me life isn't about being happy, it's about pain. What do you think of Life?

C.H.R.I.S. ■ Shit, I don't know! Staying Alive probably.

Henry You don't seem like your from Maine.

C.H.R.I.S. ■ Im not, Im originally from Houston, Texas.

Henry Houston is a cool place, theres a great scene there.

C.H.R.I.S. ■ what do you think of Maine so far?

Henry It's too f---king cold and no polution or big buildings.

C.H.R.I.S. ■ Whats next for BLACK FLAG?

Henry I don't know. We could all die tomorrow. We just wanna keep moving.

C.H.R.I.S. ■ In what direction?

Henry The BLACK FLAG direction.

C.H.R.I.S. ■ Any last comments?

Henry yeah buy our new album (Slip it In) and all you bands come play in Maine. They pay good and large stadiums for us small bands. Do it now, we did!

C.H.R.I.S. ■ That's it?

Henry F---k with no man till he f---ks with you!

C.H.R.I.S. ■ Thanks Henry

Big Boys Interview by Chris Cummings

The Big Boys have become one of the most popular skate bands around today. I talked with Tim Kerr recently about the band.

Chris-First of all whats the current line up?

Randy Turner, Chris Gates, Rey Washam, and me, Tim Kerr.

Chris-When were the Big Boys formed ?

In Austin, Texas in 1977. We got together once to play and all this stuff has been amazing.

Chris-What do you mean ?

I mean we are serious about what we are doing but its not like were gonna do this and well get a big record deal.

Chris-What do you think of the scene in Texas?

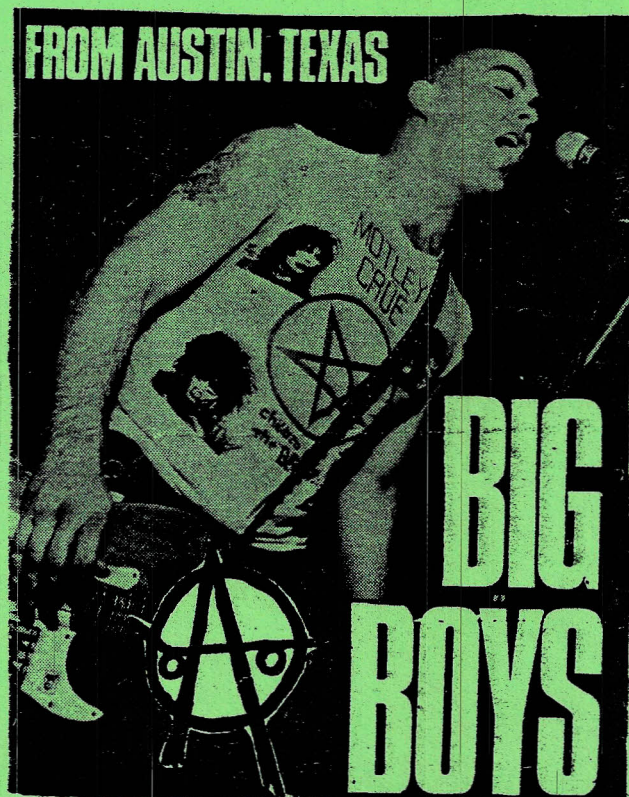

In Texas the punk/hardcore scene is more attitude than 1,2,3, kind of music

Chris-Have you always played punk ?

Yeah, weve always stayed on the wilder side of music.

Chris-What are your musical influences ? Punk, Jazz, Funk, heavy metal, etc....

Chris-How do you feel about your shows? Our shows are pretty much a free for all. If you know the songs you can get up and sing. As soon as the first chords of our songs start the stage usually starts filling up.

Chris-Are you all real skaters ? Yeah, we all been real skaters mentaliy.

Chris-Any hobbies besides skating ? Yeah, I collect shogun warriors.

Chris-Any regrets ? No, if it would end tomorrow. I've done more than I thought I would ever do. Its been worth it.

Snowboarding hits Anchorage

Snowboards have been around for 20 years, since California surfers first looked longingly at white slopes and took their ideas back to their workshops.

But only in the last several years has the popularity of the boards taken off in the Lower 48, and in Alaska the snowboard boom arrived just this winter.

Snowboarding is banned from two of the three downhill ski areas in the Anchorage area. But "the snowboarders in town don't care — they'll hike for three hours just to come down for five minutes," said Tito Ramos, an Anchorage snowboarder who competes nationally.

Ramos and owner Rick Malone run New Frontier Sports, the city's earliest and largest seller of snowboards. They carry boards made by Burton, Flite, Avalanche, Sims, SnowTech, Barfoot, Slayer and Swing-bo.

New Frontier is located at 1565 Bragaw St., Suite 102½, and can be reached by calling 276-2975.

G&B Sports is another snowboard seller, and carries the Burton, Flite, Prop and Sims brands. G&B is located upstairs in the red building at 2911 Spenard Road (at the corner of Benson) and can be reached by calling 563-5553.

The Bicycle Shop, at 1035 W. Northern Lights Blvd., carries Burton snowboards. The shop can be reached at 272-5219.

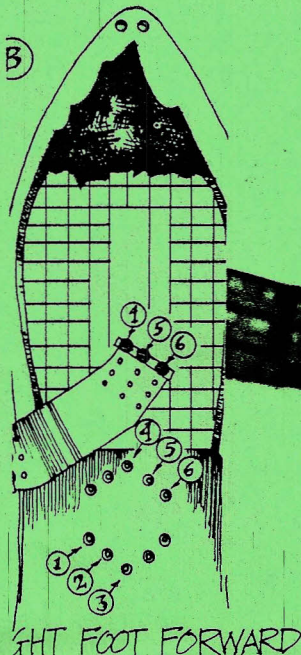

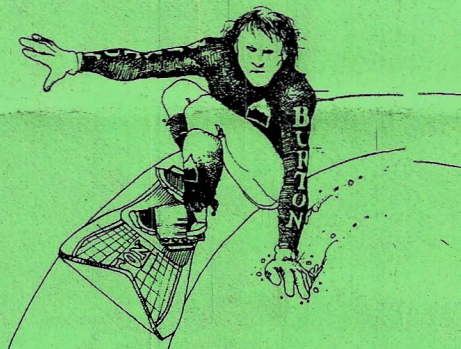

Gary King Sporting Goods also sells snowboards, but has none in stock at present. Gary King is located at 202 E. Northern Lights Blvd. and can be reached by calling 272-5401.

Snowboards range in price from a little more than \$100 to more than \$300.

We are also very interested in receiving your photographs and especially color slides of riders in action.

Brent Morris again

No we havent sunk into the ocean yet! In fact there would be enough ramps to float away on! The best two halfpipes here are Deans Dinosuar ramp which is 20ft wide, 12ft flat bottom, 8ft high. Theres the Red hill ramp which is 16ft wide, 12ft flat, 8ft high with rollin. But by far the best ramp is Kyles which was 10ft high, 16ft wide, 10ft flat, and masonited. Too bad the ramp is temporarily dismantled, but it still rules! Other then these ramps there are numerous smaller halfpipes and quarter pipes. The growing popularity of skaters is increasing the number of ramps, which is good for all of us. Hawaii also has a multitude of drainage ditches. Theres plenty of hills and parking garages. Not to mention all the parked cars, curbs, trash cans, pedestrians, etc to skate on. So Hawaii does have a pretty killer skate scene.

The music scene is also growing! Weve got six hard-core bands now. SRO and The Erect are premier bands. Then theres Scared-4-Life who I got to play guitar for (Hawaii's only straightedge skate band). Other bands are Nole-Mub, Small Contribution, and Power to the Bruddahs. Bands that have come over here are Agent Orange and Circle Jerks.

Mako at Red Hill ramp

As for fanzines and skatezines, we got a few. I put out Trash and Tool. Then theres a new music oriented zine called Sex Kitten. Plus good skate zines like Board Images, Blast, and Rebate skatemag. For addresses of these zines write Trash and Tool.

Safety tip of the month

Lincoln, Nebraska Scene

The skate scene is still growing. The idea of the indoor skatepark has kinda died since the weather has been warm. The ramps that shred are Richs (16ft wide) Midwest Melee ramp, Scott Bouwens old (12ft wide) ramp is somewhere around town. For now the Fair st (12ft wide) ramp has been moved to Scotts backyard. Gathers banks rip, theres also Peir 1 cement banks, and the dish.

The music is still alive with bands like Baby Hotline, Power of the Spoken Word. Theres also a couple of new bands called Lunchmeat, and Peer Puppet real heavy grinding music, reminds me of the early punk stuff. There hasnt been to many shows lately but soon I think.

Everybody has heard of Black Flag, BUT I'm not sure everybody will want to listen to this album. It seemed to be a slow and boring album. This album will turn more people off than it will turn on. ok

Effigies-Forever Sounded

This band is from Missouri. The music is not thrash. The singer sounds like Dennis De Young. This LP is quite different from their older LP. Interesting guitar sound.

Subterranean Records/577 Valencia/
San Fran, CA. 94110

This is a 4 song EP. Although it was recorded in 1978, it was just released. The songs pretty much last 70 stuff, with very political lyrics. Some of the members of the band, which is no longer existence are currently in a band called Flipper. I wouldn't recommend this to people who are looking for a fast band. If you are looking for good songs with meaningful lyrics, this EP is worth money. Mark Good

7 Seconds-The Crew

PO Box 67A64 LA, Ca. 90067

This is an excellent album. Kevins voice is understandable. Real tight sing-a-long lyrics. My favorite songs are Not just boys fun and Young till I die. These songs will make you think. great

Crass-Sheep farming and Gotcha

Crass Records. PO Box 279. London N22.

This 7 inch record was imported from England. This is the first time I heard Crass. This band is very creative about their country. I liked the song Gotcha it was interesting. Good

JFA

PO Box 23316/Phoenix, AZ. 85063

This is the newest album from the Phoenix band, there 11 songs, some fast, some slow, some instrumental. The one complaint I had with this LP is that it didn't come with a lyric sheet and I couldn't understand what Brian was singing. My favorite song is The day Walt Disney died. Over all it's worth getting but don't pay money unless you can't figure a way to steal it. Mark ok

This is a super band that no one has hardly heard of. They were great when they opened up for Quarterflash. But their tape is better. They're living for Rock-n-Roll. Good Steve Hoffman

You've been hangin' 'round
With an enemy of the state
Come with me to the building
That no one stops to watch

CHORUS
C'mon BLEED
C'mon BLEED
C'mon BLEED
Bleed for me

We'll strap you to a pipe
Electrodes on your balls
C'mon scream
C'mon writhe
Face down in a pool of piss

In the name of world peace
In the name of world profits
America pumps up our Secret Police

America wants fuel
To get it, it needs puppets
So what's ten million dead?
If it's keeping out the Russians

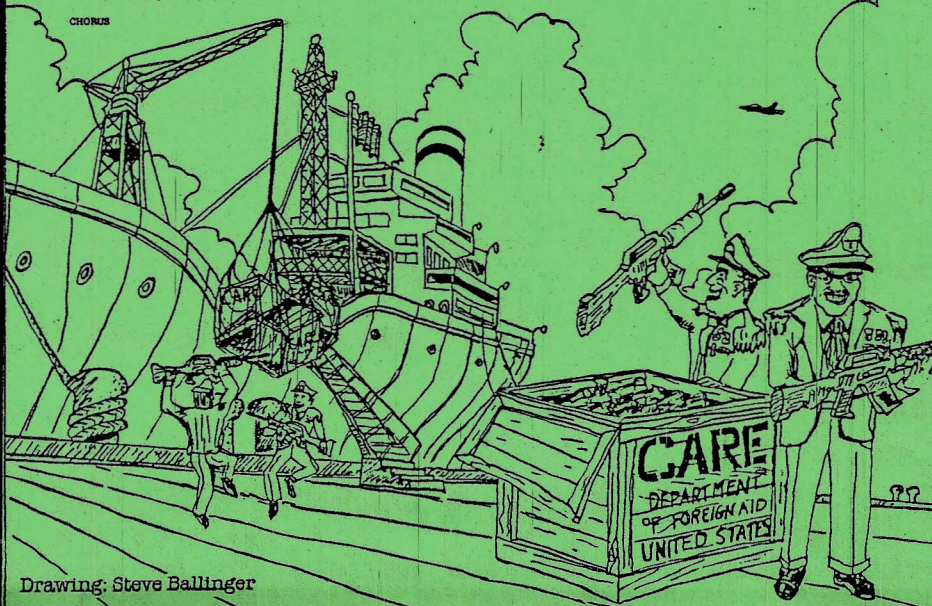

We're well-trained by the C.I.A.
With Yankee tax money in Ft. Bragg
The Peace Corps builds us labor camps
When they think they're building schools

Ha Ha

When Cowboy Ronnie comes to town
Forks out his tongue at human rights
Sit down, enjoy our schizo meal
Dine on some charbroiled ribs
Try a medal on -
Smile at the mirror as the cameras click
And make big business happy -

Maybe you'll just disappear...

Hello all you Depeche Mode fans. Depeche Modes latest album "Some Great Reward" is slightly different from what most of us expect from them. It contains mostly romantic love songs, with the exception of "People are People" and "Master and Servant" which really don't sound like Depeche Mode. Now, I'm not

MASTERS OF CREATIVITY

putting the album down, as a matter of fact I think It's a pretty good album, But I'm used to Depeche Mode music that bounces and this album just does not bounce. I do find this album better then People are People which was way too much like a industrial nightmare. If you want to listen to something bouncy listen to "Tora! Tora! Tora!" but if you want something sweet and romantic buy "Some great reward". I still think Depeche Mode are the Masters of creativity and are one of the best around.
